INFORMATION

The Lake Maggiore sailing rules (D.P.G.R. 28th June 2009 n° 5) are displayed in all lake-side town halls, public landing places, harbours, boatyards, sports clubs and in the most important hotels and camping areas.

Always keep a copy of the sailing rules (this is just a summary!) on board!

SANCTIONS

Non-observance of any established order or general rule will result in a fine of between 100 to 1.000 € (reduced payment 200€.)

NATURE RESERVE OF THE REED BEDS IN DORMELLETTO

The borders of the Reserve are marked by specific yellow buoys. If you do not see them, this means they are temporarily being repaired or substituted: in this case, follow the directions of the park guards and anyway consider the distance of 150m from the shore and the respect of reed beds!

Do not enter the Reserve on-board motorboats. You can cross the reserve to arrive and leave, along the shortest way, at the minimum speed (4 knots, less than 10 km/h) and anyway never in front of reed bed areas!

As all over the lake, in the reed bed areas navigation is forbidden as well as stopping with any kind of boat, both motorboats and others!

The non-observance of these rules will result in a fine of between 12 to 129€ (reduced fine amount: 24 Euro) that can be cumulated with any infringement of the Lake Maggiore regulation.

NATURE RESERVE OF FONDO TOCE

Regarding marking the boundaries, the rules relating to the Dormelletto Reed-beds Reserve also apply.

Within the Reserve it is forbidden to use motorboats. It is only permitted to use motorboats to moor at and leave from mooring points and permitted landing stages, taking the shortest route, from or to the shoreline, at a very slow speed (3 kn, in other words around 5 km/h).

Mooring motorboats, even if the motor is turned off, is permitted solely at private jetties and sections of shoreline in the vicinity of camp sites, and then only if there are no swimmers.

It is forbidden to moor and tie up motorboats, even if the motor is turned off, less than 100 m from the shoreline, unless there is a specific need to disembark or haul out or moor the boat, where permitted.

In areas occupied by swimmers it is forbidden to land even with boats without motors.

As throughout the whole lake, it is forbidden to sail and stop any type of craft, with or without a motor, in the reed beds. Motorless boats must remain at least 50 m from the reed-beds, unless there is a specific need to disembark, haul out or moor the boat, where allowed.

Along the Toce, it is only permitted to sail motorboats at a very slow speed (3 kn, in other words around 5 km/h) and only parallel to the direction of the river, accessing the river from the boundary of the Reserve, opposite the river mouth.

Along the rio Stronetta and the Fondotoce Canal, it is only possible to sail without a motor and parallel to the direction of the river!

It is permitted to sail electric boats, subject to the same restrictions applying to motorless boats.

It is prohibited to use jet skis, or launch, haul out or store them on public land bordering the lake.

Those breaching these rules will be liable for a fine of between €100 and €1.000 (reduced payment €200)
